COMPANY DESCRIPTION

Knights Brown is a privately owned, regional construction contractor. Predominantly the company works in southern England and Wales although the work our Wales Division carries out in the energy sector is delivered all over the UK and Republic of Ireland.

Knights Brown was originally part of the Raymond Brown Group of companies, which was first established in 1953. The group was demerged in 2016 so that Raymond Brown Minerals and Recycling could be sold. Consequently, the company was obliged to stop using the Raymond Brown name. Raymond Brown Construction was renamed Knights Brown on 1 September 2017.
